

## IN THE CLAIMS

1. (Previously Presented) A method for tracking and reporting traffic activity on a web site comprising the steps of:

storing a web page on a first server coupled to a wide area network, said web page having web page code and data mining code including a cookie processing script;  
uploading the web page to a visitor computer responsive to a request over the wide area network from the visitor computer;  
operating the data mining code on the visitor computer to obtain web browsing data;  
and  
operating the cookie processing script at the visitor computer on the web browsing data to obtain new cookie values; and  
storing the new cookie on the visitor computer including the new cookie values.

2. (Original) The method of claim 1, further comprising the step of receiving the new cookie values at a second server.

3. (Original) The method of claim 2, further including the steps of:  
attaching the new cookie values to an image request associated with a designated URL source; and  
sending the image request to the URL source.

4. (Original) The method of claim 3, further including the step of decoding the new cookie values to obtain the web browsing data.

5. (Original) The method of claim 3, further including the steps of:  
compiling the web browsing data into a web page traffic report; and  
posting the report for viewing over the wide area network.

6. (Original) The method of claim 1, wherein the step of generating a new cookie includes the step of operating the cookie processing script on an old cookie associated with the web page and previously stored on the visitor computer.

7. (Original) The method of claim 6, further including the step of overwriting the old cookie with the new cookie.

8. (Original) The method of claim 1, further including the steps of:  
detecting that an old cookie exists on the visitor computer associated with the web  
site;  
tracking events on the visitor computer;  
processing the old cookie using cookie processing code in view of the tracked events  
to obtain new cookie values; and  
replacing the old cookie values with the new cookie values.
